--

#### Details:

\* Since graduation in February 1993 up to 1999 working as **Public Health Officer at ministry of health, South Dar fur State- Sudan.** During this period, I had joined many organizations working in the field of public and environmental Health such as:

1- Water & Environmental Sanitation (WES) Project Southern Darfur States (Head of Health and Community Mobilization

Department) responsible for latrines construction, hygiene education, and community mobilization activities.

2- Nutrition Department – State Ministry of Health.

3- Head of Health Office of Nyala Municipality holding the following activities:

- Management of environmental health services at municipalities and local councils.
- Control of epidemic and endemic diseases.
- Food and beverage control and meat inspection.
- Planning and organization of houses, villages and markets.
- Quality and safety assurance of drinking water.
- Occupational health services.
- School health services.
- Sale and ideal insecticides for vermin and insects control.
- Health education and awareness and general school lectures.
- Supervision of primary health care activities in the field of nutrition. Immunization, mother and child care and AIDS control.
- Suggestion of budgets that match with the modern health promotion and how to implement them.
- Awareness of public and environmental legislation that protect the human health.
- Deep technical know-how of modern methods of scientific research and training.

**• From November 1999 to June 2002: Public Health Officer (Director of Food Control Section) in Directorate of Environmental Health and Food Control - Federal**

**Ministry of Health, Sudan:** Setting plans of actions, strategies and programs in the field of public and environmental health and food control. Also working in Control of Meningitis Epidemic (1998 – 1999) in surveillance system by agreement with WHO at Epidemiology Department – FMOH.

- **From July 2002 to 2011: Teaching Staff - Faculty of Medicine and Health Science, University of El Imam El Mahdi, as Dean Assistant for Public Health Program.** I have taught Basic epidemiology, and Research Methodology.
- **From November 2011 up to date: Teaching Staff - Faculty of Medicine and Health Science, University of El Imam El Mahdi, as Head of Epidemiology Department.**
- **From November 11/2012 up to 5/2014: Director of Malaria Control Program – State Ministry of Health – White Nile State.**
- **From August 4/2015 – 30/11/2016: WASH Project Manager (South Sudanese Refugees in White Nile State) – Plan International – Guli Program Unit with following description:**
  - Ensure that Plan’s and European Commission (EC)’ policies and procedures are continuously adhered to in the project’s planning, implementation, monitoring and evaluation phases.
  - Manage and lead the project execution and ensure efficiency in the processes and effectiveness in achieving the planned objective in a manner to reach the desired outcomes and impact.
  - Lead and manage the project team, the project budget, the project risks, the project security matters, and the affairs of the project partner (National NGO co-applicant ).
  - Ensure prompt and accurate reporting on the project to all concerned parties at the Plan International-Sudan Country office, International Office, Donor and the Government of Sudan as deemed required by each.

- Responsible to ensure representation of the project in all related coordination structures at state and localities levels as well as to ensure effective liaison on behalf of the project at all levels and with all to whom the project is of concern.
- As the first official contact, responsible to liaise with partners and implementing bodies ensure their compliance with the agreed roles, deadlines and responsibilities to implement the project through its lifetime.
- To manage the project's approved budget and ensure that the approved activities are implemented according to the approved budget lines and cost-effectiveness.
- Ensure that effective monitoring project's interventions is carried out and documented properly.
- Conduct site visits regularly to monitor implementation and submit monthly reports on project progress.
- Ensure that an effective communication system is developed and maintained to the satisfaction of all clients.
- Ensure that EC reporting requirements-which are stated in the FAD and other project and donor agreements-are met properly and timely.
- Develop and maintain effective partnerships and alliances that facilitate proper implementation of the project.
- Maintain coordination and close relationship with Plan's relevant departments (program management, Resource Mobilization, Accounts and the relevant PUs).

- Provide guidance, leadership, coaching and support for project Staff and assess their performance following performance standards and HR systems.
- Facilitate and participate effectively in project audits, reviews and evaluation.
- Ensure that proper documentation of the project's interventions and activities is maintained.
- Responsible for project level administration, procurements, project office establishment, recruitment of project staff and other related human resources issues.

**From August 12/2016 – 30/6/2018: WASH Coordinator (South Sudanese Refugees in White Nile State) – Plan International – White Nile Program Area.**

**Also I implemented many activities in co-operation with Plan Sudan Organization – Guli Unit, Edduwem Unit and Alaga Unit, such as:**

- Community events (Malaria Day) in 30 villages.
- Many courses of PHAST for teachers (in Edduwem) and for community leaders (in Guli and Alaga).
- Many courses of CHAST in Edduwem, Guli and Alaga Program Units.
- Many basic, advance and refresh courses on Little Doctor Project.
- Many basic and refresh courses on School Health Promotion Project.
- Evaluation of nutrition intervention in Alaga Unit.
- Conduct CLTS triggering sessions.
- ❖ Conduct KAP survey on water supply and sanitation with CONCERN Organization in Abye Area – 2007.

***Organized the following Courses:***
